SUMMARY

Founder of AstriOrb, a product-focused technology company, and co-founder and CTO of Cueroll. Validates problems in person before building: Tastory with 13 restaurant and cafe owners, DocCo with 30+ doctors. Builds products end to end in Flutter, React Native and React.

EXPERIENCE

Founder — *AstriOrb* · astriorb.com

Sep 2025 – Present

- **Tastory** (flagship, MVP completed): food discovery built on local knowledge instead of paid promotion. Validated on the ground across Kozhikode and Kochi with 30+ people and 13 restaurant and cafe owners. Flutter, Firebase.
- **DocCo** (built, seeking pilots, since May 2026): doctor booking with live queues for patients and clinic staff. Interviewed 30+ doctors in person across three towns and presented it to the managing director of a major hospital group. Flutter, Firebase.
- **Fisclok** (launched): free, offline personal finance app, built while learning React Native from a self-written syllabus. 103 downloads and a 5.0 rating on word of mouth alone; next version in internal testing. React Native, MMKV.
- **Project Continuum** (in testing): one workspace for freelancers and solo founders, with notes, projects, planner and ideas.

Co-founder & CTO — *Cueroll*

Jul 2026 – Present

- Own all technology: built cueroll.com, booking, creator onboarding and project tracking in React and Flutter.
- Onboarded 27+ creators and published 20+ pieces of content in the first two months.

Freelance App & Web Developer — *Self-employed, remote*

Apr 2025 – Present

- Designed and developed the complete website for Elgraficoads, a graphic advertising agency.
- PC game testing for Chronigma on Steam, finding critical bugs, gameplay imbalances and UX friction before release; creative consulting for Hopz Corp.'s Joker On The Spring.
- Build mobile and web apps with Flutter, React, Firebase and Supabase, through to Play Store release and updates.

Studio Head — *Custodian Games, Ernakulam*

Nov 2023 – Apr 2025

- Helped grow the studio from concept stage to registered startup through market and competitor research, investor pitching, sponsorship outreach and partnerships.
- Evaluated game levels and gave creative direction to improve gameplay quality and player engagement.

Flutter Developer Intern — *Annlive, Bangalore*

Dec 2024 – Jan 2025

- Built and refined Flutter UI for an automotive services app on Android and iOS, with debugging, performance work and feature integration in a Git-based startup team.

RECOGNITION & COMMUNITY

Best Game Designer — *Global Game Jam 2026*

30 Jan – 1 Feb 2026

Creator — *MH Tech Malayalam, gaming YouTube channel*

2018 – 2021

- Grew from zero to 27.7K subscribers and 1.95M views over 372 videos; ran content, shooting, editing and marketing.
- Founding admin of the PES Gaming YouTubers Kerala community and Kerala PES YouTube coordinator for Booyah; organised a 9-YouTuber eFootball league in 2021.

PROJECTS

Smart Mirror — *Team lead, final-year project*

Jan 2024 – Apr 2025

- Motion-activated, customisable smart mirror on Raspberry Pi (Python, JavaScript) with weather, news, schedules, smart-home control and Google Assistant voice; a PIR sensor wakes the display only when someone is present. Taught the team Raspberry Pi and IoT basics; earned an S grade.
